## AAA Products International REACH Statement

Under the definition of the REACH regulations EC1907/2006, AAA Products is a producer of “articles”. REACH requires article suppliers to inform recipients if an article contains a Substance of Very High Concern (SVHC) in excess of 0.1% by weight. The compliance status of the products was confirmed based on the latest 209 substances as updated by ECHA on June 25, 2020. Please refer to the following ECHA list for the most current candidate list of substances: <http://echa.europa.eu/candidate-list-table>.

Additional information on the European Union’s REACH regulation can be found here: <https://echa.europa.eu/regulations/reach/understanding-reach>.

Based on the material content certifications provided by AAA Products suppliers, none of these substances are present in the materials we use in our products. Therefore, AAA Products products do not contain any of these SVHC in excess of 0.1% by weight. AAA Products will continue to comply with REACH requirements and notify customers of any change in article content.
